

Main Line Reel

Designed to meet the diverse, rigorous requirements of the busiest inspection crews

FEATURES

- Designed to handle up to 2000ft multi-conductor cable
- Powerful 90v DC Rewind Gear Motor with automatic electric clutch for freewheel operation. Automatic chain tensioner
- Positive-engagement electro-mechanical clutch which eliminates any possibility of slippage
- Automatic cable feeding taking load off the crawler
- Heavy duty Level Wind Assembly
- 12-ring slip ring providing trouble free operation
- Directional cable arm optional
- Sealed Quadrature Footage Encoder installed on footage head
- Machined Aluminum footage head and reel flanges
- Remote/Local Speed Control
- Electronic Reel Interlock Brake operates in conjunction with crawler eliminating cable overruns on the reel
- Manual Override Switch allows operator to override the electronic interlock brake
- Pendant Control to insert and extract crawler from manhole enables user at rear of van to control crawler operation (wireless version optional)
- Rewind Motor and Clutch design eliminates requirement for manual transmission

"Anyone can make a product that is complex, but only Cobra can make one that is simple to use. Cobra has achieved their 'So Advanced... It's Simple' tag line with the video reel and all the equipment they manufacture. There is no better Inspection System."

Clarence Baldwin
McCullough Rehab - Wilsonville, AL
